

PVA eye spear (Sterile)

Hemostatic Series 

AnsCare PVA eye spear is constructed of soft, absorbent and highly retentive polyvinyl alcohol foam. The porosity is controlled for a variety of applications including LASIK and refractive surgery. AnsCare PVA eye spears, gentle on the eyeball and cornea, are designed to quickly clean the surface of the eye and absorb diffuse fluids during ophthalmic procedures.

- Designed for ophthalmic surgery
- Extremely hydrophilic
- Lint-free, fiber-free and Particulate-free
- Rapid wicking of blood and fluid
- Air-foaming technology, ultraclean without any residue

Specifications

Composition	Medical-grade PVA foam/ Polypropylene handle
Absorption rate	>5X
Sterilization	γ-ray Sterilization

Applications

Fluid control in ophthalmic or microscopic surgical procedures

Order Information

OS-011-1 (5pcs/pouch) OS-011-6 (10pcs/pouch)
